Netnod IX Oslo  
(powered by NIX)

Netnod IX Sundsvall

Netnod IX Stockholm

Netnod IX Gothenburg

Netnod IX Copenhagen

## Special offer: one year FREE connection

Netnod and IT Norrbotten are offering one year FREE connection to the Netnod IX Luleå, the place where the Nordic's northern networks meet.

### Why connect to Netnod IX Luleå?

Netnod is the leading Internet Exchange (IX) operator in the Nordics. Peering at Netnod IX Luleå offers a range of benefits for northern networks including:

- **improved speed and performance:** instead of backhauling on a transit route to Stockholm or Oslo, you peer locally. This means every packet you exchange in Luleå arrives 10ms faster and provides an improved experience for customers.
- **cost-effective connections:** instead of paying IP transit and transport costs to distant sites to exchange traffic, you receive a free 10GE connection at the IX for 12 months. After this, you can stay connected for a very low annual fee.
- **VLAN connection to any Netnod IX:** peer with some of the largest ISPs, telcos and Content Delivery Networks (CDNs) in the world for as little as SEK 500 per month. Connections available to Netnod IXes in Stockholm, Copenhagen, Oslo, Gothenburg and Sundsvall.

### One year free connection to Netnod IX Luleå

Netnod in partnership with IT Norrbotten is pleased to offer new networks connecting to IX Luleå a one year free connection with no setup fee. The offer is available for contracts signed before the end of 2019, and is offered for connection speeds at 10GE.

As part of this special offer, IT Norrbotten will offer a free 10G connection from their central node in Luleå, Rådsgatan 11, to the Netnod IX Luleå.
