Welcome to the Netnod Meeting 2023

LM Jogbäck, CEO, Netnod

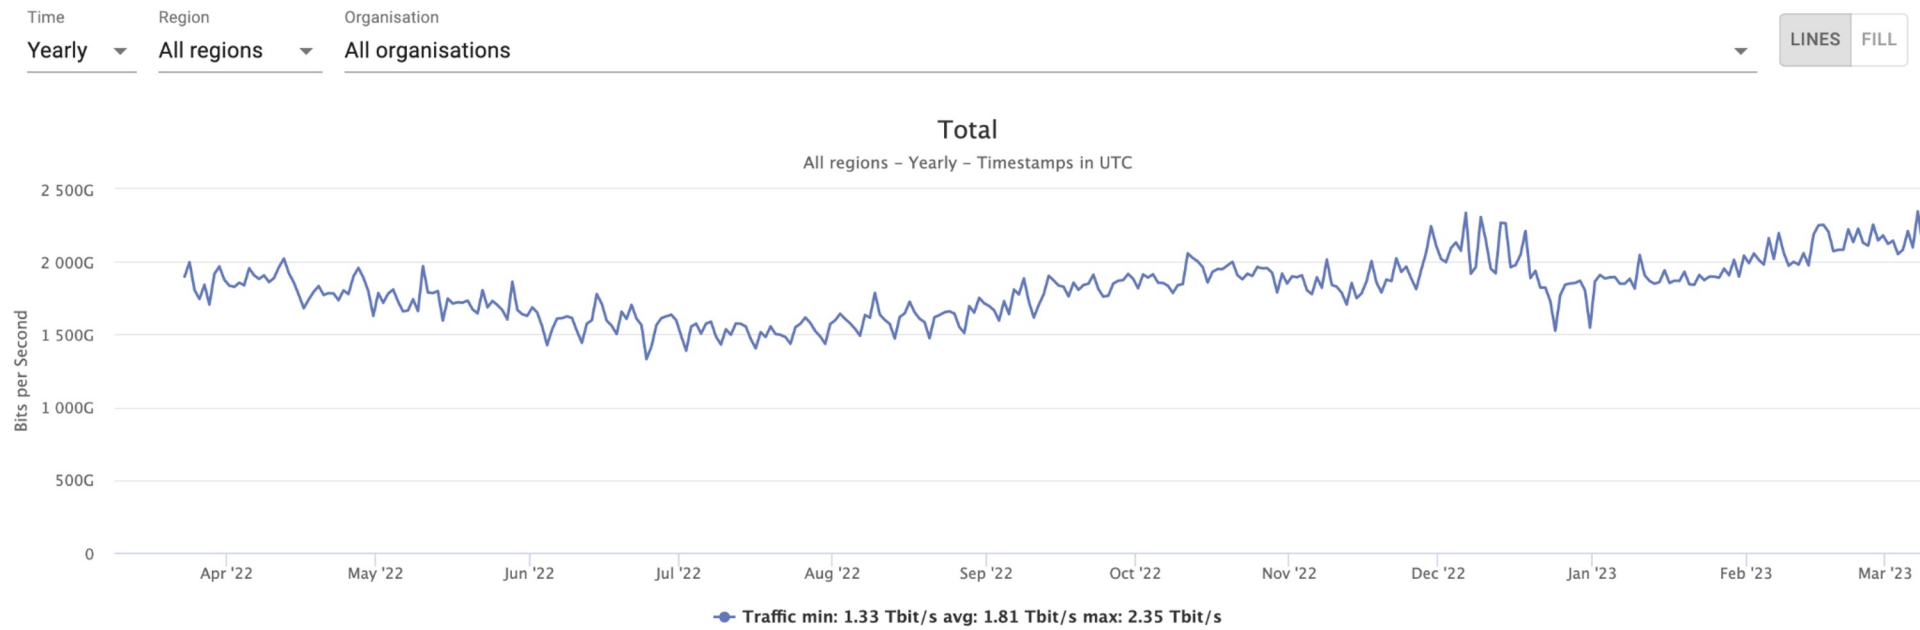
Netnod: rock-solid services

A neutral organisation with more than 25 years working at the core of the Internet.

- Operates the largest **Internet Exchange (IX)** in the Nordics
- Manages I-root, one of world's 13 root name **DNS** servers
- Provides **DNS services** to enterprises and some of the largest Top Level Domains in the world
- Develops **Time and frequency** services with the highest levels of accuracy and security

The largest IX platform in the Nordics

- Peak traffic 2+ Tbps
- 200+ connected ASNs
- 100% uptime since 2002



7 March 2023 - All time high! Peak traffic: 2.35 Tbps

Netnod Helsinki

3 PoPs:

- Digita Helsinki Pasila
- Equinix HE7
- Telia Helsinki

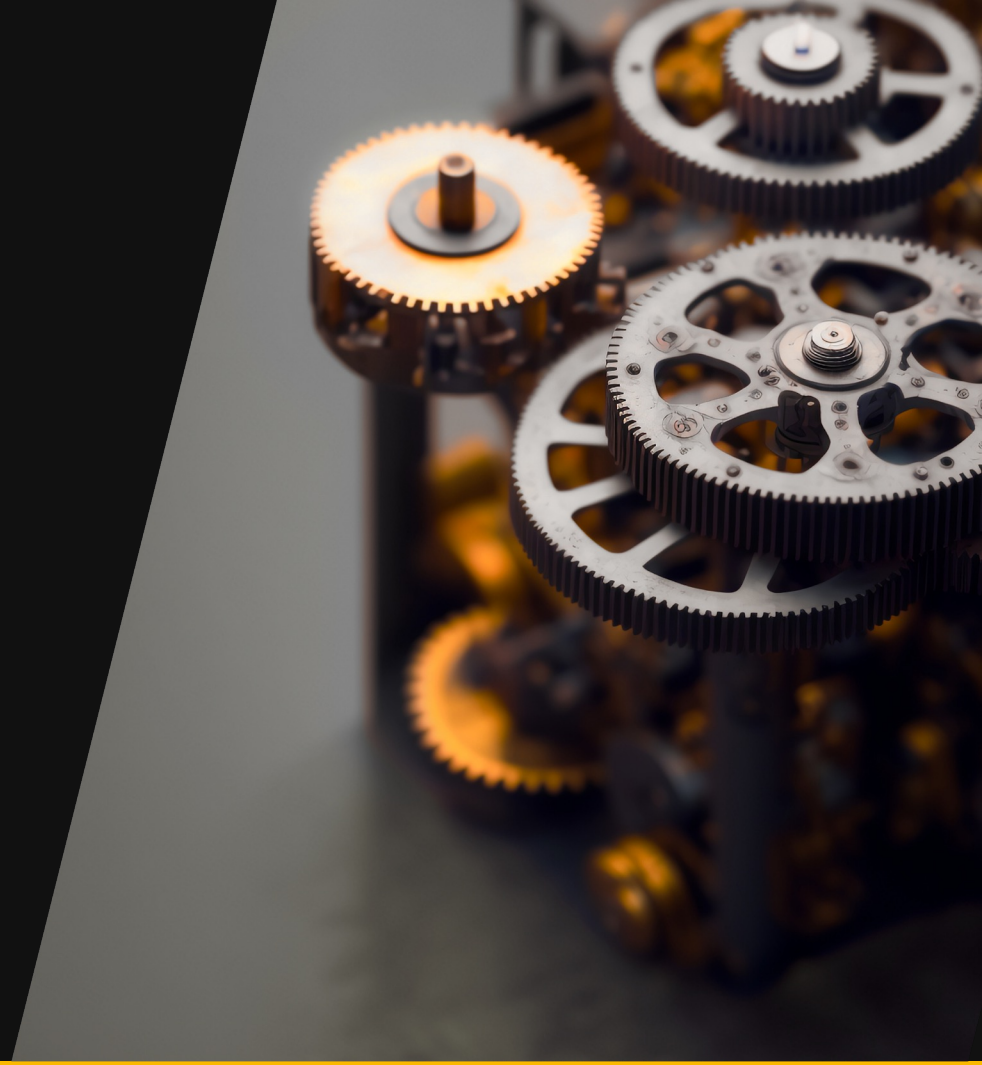
GLOBAL DNS LOCATIONS

We always know what time it is

Sweden trusts Netnod to distribute national time.



Swedish distributed time service

- Operated by Netnod, monitored by RISE and financed by PTS
- 6 time nodes placed in secure bunkers throughout Sweden (Stratum-1 time servers)
- Time traceable to UTC
- Free and commercial service with SLA

How to ensure time security across a global network - an industry Q&A

Rob Allen , 2023.02.21

Staying alive: what is TTL and why is it important for your DNS setup?

Lars-Johan Liman , 2022.09.15

Security by diversity: designing secure, reliable and robust systems

Fredrik Lindeberg , 2022.06.08

Implementing Network Time Security at the Hardware Level

Christer Weinigel , 2022.07.07

Peering in Norway: traffic growth and shifting patterns

Guest Blogger , 2021.09.20

Why accurate and secure time is the key to 21st century energy

Christian Lindholm , 2021.10.28

A big welcome to our new colleagues

Dennis Rydgren

Marketing Manager

Sören Matiros

Junior Systems Administrator

Jonas Borgström

Senior Software Engineer
