We are working for the good of the Internet

Welcome to the Netnod Meeting 2024

Karin Ahl, CEO Netnod

We are experts who provide rock-solid services for the good of the Internet

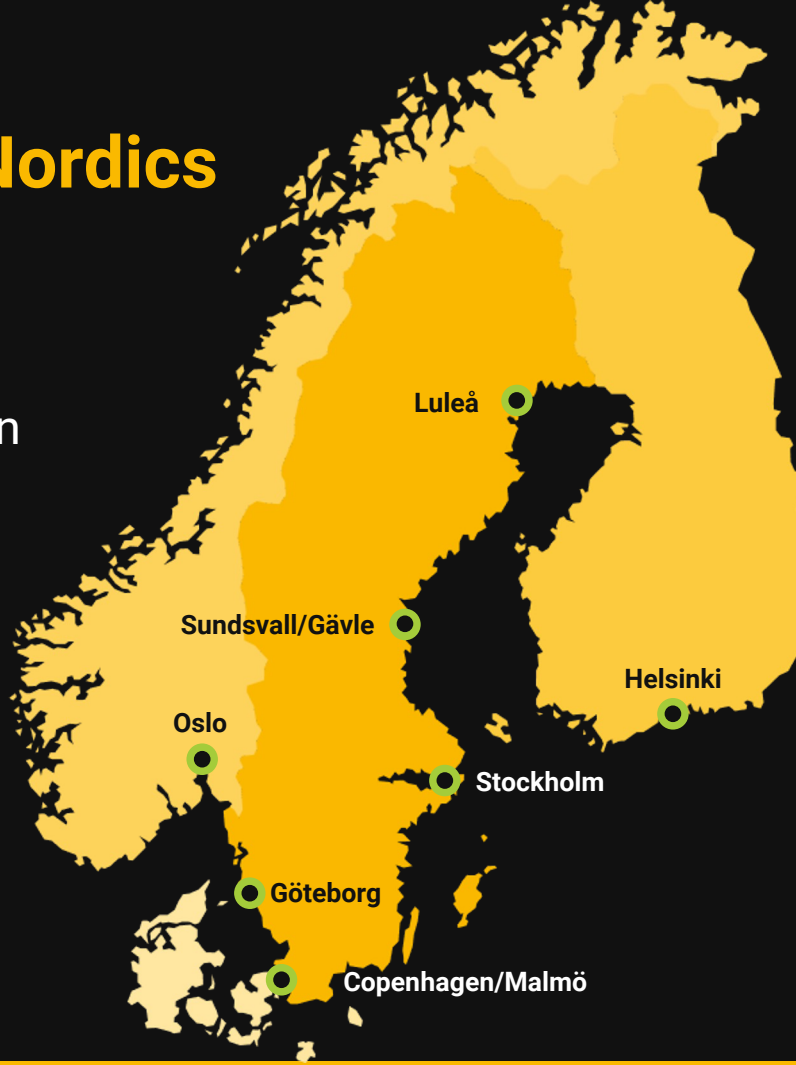
- Operate the largest **IX** in the Nordics
- Manage **I-root,** one of world's 13 root name DNS servers
- Provide **DNS services** to enterprises and some of the largest TLDs
- Run a world-leading **Time service for Sweden**

The largest IX platform in the Nordics

- > 2 Tbps peak traffic, >200 ASNs
- Built for robustness: 100% uptime since 2002
- Exchange local traffic, and scale across region
- Metro WDM services

Value added services:

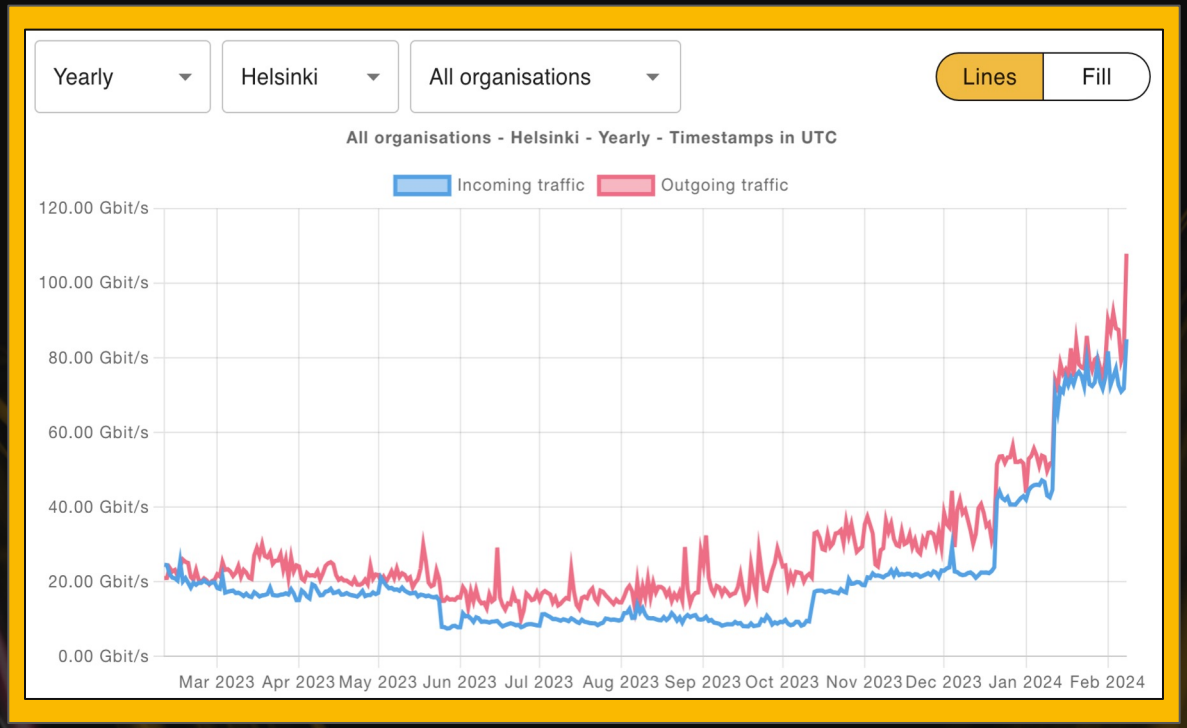
- Closed User Group
- Remote IX: Peer across Nordics with one port
- Netnod Time Direct
- Cross-IX



Cross-IX

Connecting Netnod IX Stockholm and AMS IX Amsterdam

Helsinki IX hits 100 Gbps



80+
Global DNS sites

Swedish distributed time service

- 6 time nodes placed in secure bunkers throughout Sweden (Stratum-1 time servers)
  - Stockholm x2
  - Gothenburg
  - Malmö/Copenhagen
  - Luleå
  - Sundsvall
- New clocks: Adtran’s optical cesium clocks
  - Chosen after extensive research
  - Optimised for lifetime, performance and stability

Help customers be prepared and stay one step ahead when it comes to security

We see an increasing number of security incidents in Sweden and globally. To address this need, we are growing our security team and working on a service portfolio.
